

Segundo has been a key resource implementation specialist in the federal market since 1998. We have been instrumental in supporting the implementation of the first version of Oracle Federal Financials and have played a key development role in later releases.

Segundo is a small woman owned business with a GSA Federal Supply Schedule GS-35F-0070L.

Segundo is an Oracle Partner and represents the United States Coast Guard on Oracle's Customer Advisory Board (CAB) as subject matter expert.

Segundo supports e-government initiatives by providing Oracle Enterprise Resource Planning (ERP) implementation, upgrade, management, web development, training, project management, help desk management and vendor oversight management solutions.
